## Homelessness

Losing your home or being at risk of homelessness is a big burden.

The state of North-Rhine-Westphalia (NRW) helps cities and towns with the program "Endlich ein Zuhause" (finally a home) to fight homelessness.

## The „Kümmerer“-Project

The City of Leverkusen takes part in the program "Endlich ein Zuhause" with the "Kümmerer" project.

Our goal: To stop homelessness before it happens and help people keep their homes for the long term

If you like, you can make an appointment for a personal counseling.

This offer is for free and our team keeps everything private.

## How we help

Our social workers visit people in person and try to help early.

### Our support includes:

- Helping you contact your landlord or housing company
- Helping you find other support services, such as debt counseling
- Helping you apply for social support or benefits
